Ameren Labadie Mar 2016 Data Report.xlsx

The only met data I have for 2016 starts on 3/24/2016 16:00 – 3/31/2016 23:00, so 7 days of met. Not sure that is useful.

The site was flooded on Dec 30 I believe.

So I'm to send this file with 7 days of met to Ken Miller?

Okay – thanks for the quick response. I will poll my staff about either 10-12 Thursday or after 2 on Friday. Please hold those slots in the interim and I will get back to you ASAP. I'm thinking Adobe Connect would work well for this, since we may want to put up maps or modeling results.

Leanne – Our team will include Ken Anderson, Bob Paine from AECOM and me. Here are some dates and times that will work for us: Thursday July 7 any time before 12P; Friday July 8; before 10A or after 1P.

I look forward to our discussion and thanks for coordinating the call.

Steve

---

Hello Becky,

I talked with Steve Whitworth (copied herein) about an additional monitoring as we discussed. I agreed to run logistics to set up a call with DNR, Ameren and EPA to discuss siting.

If you and Steve will send me a list of possible dates/times that would work for your crews, I'll try to get a call set up. Perhaps Adobe Connect would work well for this purpose so we can show maps, etc.

Thanks,

LTM
